PROFILE

Highly skilled and experienced Full Stack Developer with a proven track record of delivering innovative and efficient software solutions. With more than a year of hands-on experience encompassing both front-end and back-end development, there exists a profound comprehension of the complete development lifecycle applied to every project. Motivated and passionate about learning new things.

PROFESSIONAL EXPERIENCE

Software Development Engineer -1
Intugine Technologies
11/2022 – present | Bengaluru, India

- Successfully led the migration of the website CMS from **Ghost** to **WordPress**, ensuring a seamless transition of all blog content.
- Solely managed the website code base, consistently delivering updates and improvements to meet company goals.
- Integrated **HubSpot** into the website to enhance marketing capabilities, enabling effective lead generation and marketing automation.
- Engaged in the development of a web server with a primary focus on enhancing security measures, while also ensuring the ability to manipulate API responses to achieve desired formatting and for better performance.
- Significantly reduced website loading times for both web and mobile versions, resulting in improved user experience and website's overall **Search Engine Optimization(SEO) performance**.
- Played a pivotal role in the development and enhancement of the **Control Tower App** a **server-driven** UI platform, that helps logistics teams gain a bird's eye view of their entire logistics network. Implemented new features and functionalities to improve the product's performance and usability.
- Collaborated with cross-functional teams to identify and address technical challenges, ensuring the product met or exceeded customer expectations.
